20 centimeters thick, and this is then smeared an inch thick with fresh cattle dung (e modjeſ, modiok). For protection against heavy /25/ rain, one at times also puts dried and dehaired neat-skins on that. Toward anyone entering through the door opening (eh gutok ehg adji = the mouth of the hut) thick smoke pours from

[Warrior Kraal]

701 361 342 /85 cont./ Under a shade tree with thick foliage a spot about 20 to 25 square meters in size is cleared and enclosed with a barricade of branches. During the rainy season in place of this kraal a small hut (Fig. 18) is built out of leaves. Its approximately circular ground plan has a diameter of two to three meters. On the side opposite the entrance opening is the common sleeping place of the oi giber companions: between this and the door, the hearth; beside the door the space for firewood. [415] [937] [216] Close beside the sleeping place hangs the stomach or [illegible] cattle just slaughtered -- filled with an extract of roots and barks that acts as a nerve stimulant and is drunk whenever one is thirsty (oi ɔ̃ɔ̃ɛ).

a) Sleeping place. b) Drinking bag. c) Pole for meat. d) Hearth. e) Firewood. f) Entrance.

[251] 701 342 In the vicinity of the hearth the meat supply, is hung on sticks (oi alele). In the vicinity of the warrior hut the serving boys build themselves their own, considerably smaller one. One calls kraal or hut eŋ adji oi bul. 701 262 264 [252] [276] Each oi giber receives a longitudinal half of the slaughtered head of cattle, from which, however, it immediately gives back the pieces intended for cooking for the common meals of the day. /86/ The picked-out fat is cooked together with this meat, and to the whole are added extracts or decoctions from roots and barks (especially from oi gerakasua (1).
